Honorable Board of Supervisors
Administration Building
1221 Oak Street, Suite 536
Oakland, California 94612

Dear Board Members:

**SUBJECT: AMEND A COUNTYWIDE TEMPORARY MORATORIUM
ON RESIDENTIAL EVICTIONS**

RECOMMENDATIONS:

- A. Amend an urgency ordinance enacting a temporary moratorium on evictions due to COVID-19 to create a moratorium on all evictions regardless of cause; and
- B. Amend an ordinance enacting a temporary moratorium on evictions due to COVID-19 to create a moratorium on all evictions regardless of cause.

SUMMARY/DISCUSSION:

On March 24, 2020, your Board enacted an urgency ordinance creating a temporary moratorium on evictions for renters and homeowners in the Unincorporated County (Ordinance No. 2020-14). On March 31, 2020, your Board amended the Unincorporated County Urgency Ordinance to extend its protections to the entire County. This Urgency Ordinance applied a moratorium on evictions to tenants, homeowners or mobile home owners who can provide documentation that they cannot pay their rent or mortgage due to a substantial loss of income, substantial out-of-pocket medical expenses, or extraordinary childcare needs caused by COVID-19. These actions were deemed necessary due to the COVID-19 public health emergency declared on March 4, 2020 by the State of California and on March 10, 2020 by Alameda County. The amendments before your Board this morning further amend both the urgency ordinance and the regular ordinance to extend additional protections, and better align both of them with city ordinances within the County.

The Community Development Agency's Housing and Community Development Department (HCD) worked to craft these modifications with County Counsel, Public Health, all cities countywide, Resources for Community Development, and multiple legal agencies including Bay Area Legal Aid, Centro Legal de la Raza, East Bay Community Law Center, and Housing and Economic Rights Advocates.

The amended Ordinance before your Board today includes the following key changes:

1. Expands to Include all Evictions: The Ordinance institutes a moratorium on all evictions during the local health emergency regardless of cause, with limited exceptions. The exceptions to this moratorium include an imminent health or safety risk; however, infection or a heightened risk of infection with COVID-19 is not an allowable risk. It is the burden of a landlord claiming their eviction action is not prohibited to prove an exception applies.

As stated in the ordinance previously passed by your Board, it is in the interest of public health to prevent any increase in homelessness and ensure residents are able to shelter in place. This change is necessary to implement this goal and protect the health and safety of County residents and for that reason, it was the primary amendment recommended by legal agencies.

2. Repayment Provisions: Tenants shall have twelve (12) months to repay overdue rent, unless the tenant and landlord can come to a mutual repayment agreement. The repayment period will ensure residents have a reasonable amount of time to become current on past rent. The amended moratorium will also create a permanent ban on evictions for this overdue rent, instead making the overdue rent a consumer debt. Without this provision, the County's eviction moratorium only delays a wave of evictions that will likely result from this crisis. By declaring that rent that becomes overdue during the public health crisis can never be used to evict a resident, landlords retain the ability to pursue the overdue rent as debt via small claims court, a payment plan or garnishing of wages.
3. Documentation Requirement: The proposed amended ordinance allows residents claiming COVID-19 impacts an extended period of time in which to provide documentation of those impacts upon request by a landlord: within 45 days of the landlord's request or 30 days of the expiration of the shelter in place order, whichever is later. The proposed amended ordinance also allows a sworn statement attesting to the existence of a COVID-19 impact as acceptable documentation. These additions make it easier for residents to claim the protections granted under this ordinance, especially residents who do not have immediate access to the required documentation or the ability to submit them.
4. Outlaw of Waiver: Tenants are not allowed to waive rights granted by this ordinance. This modification was included after legal agencies gave feedback that some tenants had been approached by their landlords with incentives if they were to sign away their rights granted by similar ordinances. It is the intention of the County to ensure all residents who qualify receive these protections.
5. Co-existence with City Eviction Ordinances: Cities that have passed eviction moratoriums may "opt out" of provisions of the County moratorium. Giving cities this option provides baseline protections for residents of cities without moratoria, but allows cities to make determinations in the best interest of their residents.

If approved by your Board, this ordinance takes immediate effect and would cease to be in effect ninety (90) days from its date of adoption or the lifting of the emergency declaration, whichever is sooner; or by an action of the Board to extend the moratorium.

FINANCING:

There will be no increase in net county cost.

VISION 2026 GOAL:

A moratorium on residential evictions will support the overarching vision of **Thriving and Resilient Population** and the 10X goal of **Eliminating Homelessness** by ensuring all residents' basic needs are met, including facilitating access to and retention of safe, stable housing while building resiliency and self-sufficiency among vulnerable populations.

Very truly yours,

RE: Public Health Impact of the Countywide Eviction Moratorium

On March 16th and then subsequently on March 31st, Alameda County along with five other Bay Area counties announced Shelter in Place Orders for all residents, directing approximately 6.7 million people to stay in their homes to curb the spread of the virus. Governor Newsom subsequently expanded Shelter in Place regulation statewide.

Since the Shelter in Place Orders, Alameda County has seen its residents, schools, businesses, organizations, and government agencies sheltering in place and increasing social and physical distancing. Shelter in place and physical distancing is necessary to reduce person-to-person contact, slow COVID-19 transmission, prevent health systems from becoming overwhelmed, reduce COVID-19 morbidity and mortality, and promote public health and safety for all.

Shelter in place is associated with socioeconomic impacts that we must mitigate in order for all Alameda County residents—regardless of their skin color, how much money they make, what country they're from, or what language they speak— to follow the Order. In a public health emergency of this magnitude, we are only as healthy as those who are most vulnerable and insecure. Income and neighborhood poverty can affect one's ability to shelter in place and maintain health and well-being—including how easy or difficult it is for people and families to work from home; care for and teach children during school closures; maintain household income; keep food on their table and a roof over their heads; and stay informed and adequately protected as situations rapidly evolve.

As many local businesses, community organizations, and recreational facilities have closed or substantially scaled back on operations, thousands of individuals now face unemployment, reduced work hours, and loss of income. Coupled with already high costs of housing and living, these factors

pose a serious immediate threat to residents and families already living from paycheck to paycheck and struggling to make ends meet.

Ensuring housing stability is essential to protect the health of Alameda County residents as the region responds to and recovers from the COVID-19 crisis. Loss of stable housing—through eviction, foreclosure, natural disaster, or other causes—poses numerous significant health risks, both for the individuals directly affected and for the larger population. Loss of housing disrupts a family's and/or individual's ability to shelter in place and practice social distancing, which increases the likelihood of disease transmission. In seeking new housing arrangements, displaced renters would have to travel and interact with others or may stay with friends and family in overcrowded conditions. These actions increase potential for exposure and conflict with recommended social distancing practices.

Loss of housing is also a leading contributor to homelessness. People experiencing homelessness face increased barriers to staying healthy during this pandemic. Homeless individuals live in environments that are conducive to a disease epidemic, including lack of regular access to basic hygiene supplies and showering facilities, all of which could facilitate virus transmission. They also face serious health issues due to their inability to isolate, quarantine, and recover. Governor Newsom has estimated that 60,000 homeless Californians could contract COVID-19 over the next eight weeks.

In the absence of a COVID-19 vaccine, public health measures—including testing, quarantine, and physical distancing—are the most effective methods we have to “flatten the curve,” reduce strain on our healthcare system and communities, and limit the spread of COVID-19. In order for these measures to be successful and protect the health of everyone in our county, we must also address structural issues such as the Bay Area's severe housing affordability crisis.

The Alameda County Health Care Services Agency supports strengthening the countywide eviction moratorium ordinance developed by the Community Development Agency and want to underscore the importance of robust emergency measures to ensure housing stability for low-income individuals and people experiencing or in danger of homelessness.

ORDINANCE NO. O-2020-_____

AN ORDINANCE AMENDING CHAPTER 6.120 OF THE ALAMEDA COUNTY ORDINANCE CODE TO MODIFY THE TEMPORARY MORATORIUM ON RESIDENTIAL EVICTIONS DUE TO AND DURING THE COVID-19 EMERGENCY IN THE COUNTY OF ALAMEDA

SECTION I

In enacting this ordinance, the Board of Supervisors of the County of Alameda, State of California makes the following findings:

1. On March 4, 2020, the Governor of the State of California issued a Proclamation of a State of Emergency in the State of California related to the novel coronavirus that emerged in 2019 ("COVID-19"); and
2. On March 10, 2020, the County of Alameda ("County") ratified the County Health Officer's declaration of a local health emergency ("Emergency Declaration") as a result of COVID-19; and
3. On March 11, 2020, the World Health Organization declared the COVID-19 outbreak a pandemic; and
4. As of March 15, 2020, all eighteen (18) school districts within the County have suspended in-class instruction or closed all schools and as a result, parents and guardians are missing work to care for these children; and
5. On March 16, 2020, the Alameda County Sheriff's Office announced it would temporarily suspend evictions due to the COVID-19 health emergency; and
6. On March 16, 2020, the County of Alameda joined Contra Costa, Marin, San Francisco, San Mateo, and Santa Clara counties and the City of Berkeley on an order directing their respective residents to shelter at home for three weeks beginning March 17 ("Shelter-in-Place Order"). The Shelter-in-Place Order also requires all businesses except essential businesses as described in the order to cease all activities at facilities located within the County except minimum basic operations and prohibits all public and private gatherings of any number of people except for limited purposes as well as all non-essential travel. These restrictions will reduce economic activity and as a result, household incomes during this time; and
7. Because of these impacts, many employers have laid off or will need to lay off employees, working County residents with children may be compelled not to work in order to provide care for their child(ren), and many County residents who are working and become ill due to COVID-19, or who must self-quarantine due to COVID-19 because they have been exposed to COVID-19, do not have paid sick leave; and

8. Those residents financially impacted due to COVID-19 may not be able to make timely rent or mortgage payments or be forced to choose between paying housing expenses and having sufficient funds for food, medical care or other necessities for themselves and their families; and
9. On March 14, 2020, the Alameda County Superior Court declared that all unlawful detainer mandatory settlement conferences for jury trials and jury trials currently set between Monday, March 16, and Friday, April 3, 2020 will be continued on a rolling basis for 3 weeks from the currently scheduled trial date, and, on March 16, ordered the stay of all evictions pending between Tuesday, March 17, 2020, up to and through Wednesday, April 8, 2020, the anticipated reopening of the Court, among other significant reductions in court operations; and
10. On March 18, 2020, the federal government announced temporary suspensions of certain foreclosures and related evictions to promote housing stability during the COVID-19 pandemic; and
11. As of March 18, 2020, there were 31 confirmed cases of COVID-19 in the County, as of March 26, 2020, there were 135 confirmed cases and two deaths, as of April 14, 2020 there were 962 confirmed cases and 36 deaths, and the number of documented cases is likely to increase as more effective, accessible, and proactive testing methods are introduced and community spread continues; and
12. As the response to the public health emergency has escalated, many County residents have been economically impacted from COVID-19, including, but not limited to lost business through the hospitality, retail, entertainment, and gig economies. Both large and smaller events across the Bay Area are being cancelled or postponed due to the Shelter-in-Place Order and recommendations at all levels of government to cancel large gatherings amid concerns over spread of the COVID-19. These cancellations and postponements cause loss in revenue for the event, as well as surrounding local businesses that rely on such events to bring in patrons to their businesses; and
13. After the World Health Organization officially declared the spread of COVID-19 a pandemic on March 11, 2020, stocks entered a bear market and fell more than 20%, and in the week ending March 14, 2020, workers filed 281,000 unemployment claims, an increase of 70,000 from the previous week; and
14. Displacement through eviction destabilizes the living situation of tenants and homeowners and impacts the health of County residents by uprooting children from schools, disrupting the social ties and networks that are integral to citizens' welfare and the stability of communities. It also creates undue hardship for tenants and homeowners through additional relocation costs, stress and anxiety, and the threat of homelessness due to the lack of alternative housing; and

15. COVID-19 poses a unique threat to people experiencing homelessness, who lack resources for sanitation, stay in overcrowded shelters, encampments, vehicles and other places, and already have a high rate of poorly treated chronic illnesses. In 2019, the Alameda County Point in Time Count estimated 349 people are homeless in the unincorporated area, an increase of 59% since the last count in 2017. The countywide increase was 47%; and
16. Such displacement, destabilization and any increase in homelessness would increase the risk of transmission of COVID-19 throughout the County by rendering it difficult or impossible for individuals to shelter-in-place and to observe social distancing and hygiene practices that are recommended to reduce the transmission of COVID-19; and
17. Pursuant to existing state law, specified evictions during declared states of emergency are illegal, specifically, Penal Code section 396, subdivision (f) provides: “It is unlawful for a person, business, or other entity to evict any residential tenant of residential housing after the proclamation of a state of emergency declared by the President of the United States or the Governor, or upon the declaration of a local emergency by an official, board, or other governing body vested with authority to make that declaration in any city, county, or city and county, and for a period of 30 days following that proclamation or declaration, or any period that the proclamation or declaration is extended by the applicable authority and rent or offer to rent to another person at a rental price greater than the evicted tenant could be charged under this section. It shall not be a violation of this subdivision for a person, business, or other entity to continue an eviction process that was lawfully begun prior to the proclamation or declaration of emergency”; and
18. Pursuant to Executive Order N-28-20 issued by the Governor of the State of California on March 16, 2020, the protections afforded by Penal Code section 396, subdivision (f) are in effect through May 31, 2020; accordingly, no new evictions of residential tenants meeting the conditions specified may be pursued until May 31, 2020 at the earliest, as a matter of state law; and
19. Pursuant to Executive Order N-28-20, any provision of state law that would preempt or otherwise restrict a local government’s exercise of its police power to impose substantive limitations on evictions due to specified financial burdens caused by COVID-19 are suspended; and
20. On March 19, 2020, the Governor issued Executive Order N-33-20 directing all residents in the State of California to stay at home except for essential activities during the COVID-19 emergency; and
21. On April 6, 2020, the Judicial Council of California issued emergency rules suspending court proceedings for unlawful detainer and judicial foreclosures until 90 days after the Governor declares that the state of emergency related to the COVID-19 pandemic is lifted; and
22. The County, pursuant to its police powers, has broad authority to maintain the public peace, health, safety and welfare for its residents; and

23. Pursuant to Government Code section 8634, during a local emergency, the Board of Supervisors may promulgate orders and regulations necessary to provide for the protection of life and property; and
24. The California Attorney General has opined that when a county has declared a local emergency within its jurisdictional boundaries in an area that includes both unincorporated and incorporated territory, the county may adopt emergency rules and regulations pursuant to Government Code section 8634 that will be effective in both unincorporated and incorporated areas (62 Ops. Cal. Atty. Gen. 701 (1979)); and
25. COVID-19 continues to spread rapidly throughout the community without regard to jurisdictional boundaries; and
26. Both the County's Emergency Declaration and Shelter-in-Place Order apply throughout the County, to both the unincorporated area of the County and within each incorporated city in the County; and
27. This ordinance is a temporary moratorium intended to promote the public peace, health, welfare and safety by reducing the public's exposure to the transmission of COVID-19 by enabling tenants and homeowners throughout the County whose income, medical expenses or child care needs are affected due to COVID-19 to remain in their homes in accordance with the Shelter-in-Place Order; and
28. This ordinance is also intended to promote stability within the residential market in the County, including both the unincorporated and incorporated areas, during the COVID-19 pandemic outbreak and to prevent avoidable homelessness, thereby promoting the public peace, health, welfare and safety by reducing the public's exposure to the transmission of COVID-19; and
29. During the COVID-19 pandemic outbreak, affected tenants and homeowners who have lost available income due to the impact on the economy or their out-of-pocket medical or child care expenses may be at risk of homelessness if they are evicted for non-payment as they will have little or no available income and be unable to secure other housing if evicted; and
30. This ordinance is not subject to the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines Section 15061(b)(3) (because it can be seen with certainty that there is no possibility that the ordinance may have a significant effect on the environment) and pursuant to Section 15378, which defines a "project" under CEQA (the ordinance is not a "project" because it has no potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment).

SECTION II

NOW, THEREFORE, the Board of Supervisors of the County of Alameda ordains as follows:

Chapter 6.120 of the Alameda County Ordinance Code is hereby amended to read in its entirety as follows:

Chapter 6.120 – Temporary Eviction Moratorium for the Incorporated and Unincorporated Areas of the County Due to and During the COVID-19 Emergency.

6.120.010 - Purpose, Intent and Scope.

This ordinance is enacted to promote the public peace, health, welfare and safety. The purposes of this ordinance are to reduce the transmission of COVID-19, to promote housing stability during the COVID-19 pandemic and to prevent avoidable homelessness. This ordinance is necessary to promote the public peace, health, welfare and safety because the COVID-19 pandemic has the potential for destabilizing the residential market for the reasons described in the findings made by the Board of Supervisors in enacting this ordinance. This ordinance is intended to enable tenants, homeowners, and mobilehome owners in the County to shelter-in-place and avoid displacement during the COVID-19 pandemic. This ordinance is also intended to enable tenants, homeowners, and mobilehome owners in the County whose income, medical expenses, or childcare needs have been affected by the COVID-19 pandemic to be temporarily protected from eviction for non-payment of rent or mortgage payments. This ordinance is intended to reduce the risk that these events will lead to anxiety, stress and potential homelessness for the affected residents and their communities thereby serving the public peace, health, safety, and public welfare. The temporary moratorium on evictions by this ordinance is created pursuant to the County's emergency authority pursuant to Government Code section 8634 and its general police powers to protect the health, safety, and welfare of its residents, in addition to any rights and obligations under state and federal law.

- F. An Affected Resident may provide other documentation to demonstrate a substantial hardship or inability to make timely rent or mortgage payments caused by COVID-19.

- G. Any confidential medical information or other information protected by the Affected Resident's rights to privacy shall be held confidential by the Landlord or Lender and shall not be reproduced or distributed unless otherwise authorized or required by law.

6.120.070 - Retaliation Prohibited.

- B. In any action to recover possession of a Residential Unit from a Tenant based on nonpayment of rent, it shall be an affirmative defense that the rent became due during the effective periods of Sections 6.120.030.A. or D. or 6.120.040.A. or D. of this ordinance. This defense may be raised at any time, including after the end of the Local Health Emergency and after the expiration of this ordinance stated in Section III.

 - 3. Any person found to have violated this ordinance shall be subject to appropriate injunctive relief and shall be liable to the Resident for damages, costs, and reasonable attorneys' fees.
