BERKELEY HIGH
IS FIFTH AMONG
SCHOOLS OF STATE

A statement of the standing of the high schools of the State, received by City Superintendent of Schools S. D. Waterman from State Controller Colgan, shows the Berkeley High School to be fifth largest in the State in the point of attendance. The report, which was filed at the end of last year, gives the attendance at the local institution as 508.

Since the opening of the spring term the enrollment has reached 690, and there is every indication, judging from the ratio of increase experienced during past years, that the number of pupils attending the school will reach considerably more than 700.

The enrollment of the high schools as compiled by the Controller is as follows:

- Oakland, 836; Lowell of San Francisco, 604; Los Angeles, 560; Girls of San Francisco, 527; Berkeley, 508; San Jose, 482; Sacramento, 303; Stockton, 253; Fresno, 266.

The circular sent out by Controller Colgan states that the Berkeley High School will receive $4,390.62, as two-thirds of its share of the tax levied under the terms of a new law for the benefit of the high schools. This sum will take the place of the money that would have accrued had not the Town Board of Trustees, sitting as a board of equalization, cut the high school tax apportionment 5 cents.
