NEW PLAN OF ADMISSION TO U. C. IS TOLD

Student's Scholarship Record Alone to Be Sufficient to Admit Him Without Principal's Approval

By a new plan of admission to the University of California for high school graduates a record of the student's scholarship which shows that he has had a scholarly background of some standing will be considered sufficient to admit him to the university.

Under the new plan, which was adopted by the university's board of regents on March 16, the records for admission will be as follows:

Required is evidence of the student's record in the high school, showing that he has had a scholarship background of some standing. This evidence will be in the form of a transcript or a report card, or both. The transcript or report card will show the student's name, the name of the school, the dates of attendance, and the grades or marks obtained.

The grades or marks will be based on the student's performance in all subjects, and will be given on a scale of 1 to 4, with 1 being the highest and 4 the lowest. The student's scholarship background will be considered sufficient if he has a grade point average of at least 3.0 on a 4.0 scale, or a grade point average of at least 80 on a 100 scale.

This plan will be in effect for the fall term of 1929 and will be subject to amendment by the board of regents at any time.
