Purpose of Inspection: 003 - FOLLOW-UP INSPECTION
Result: 00 - NOT APPLICABLE
Re-Inspection Date: Not Specified

Inspection Violations
No violations cited.

Overall Inspection Comments
Re-inspection to evaluate hot water and refrigeration temperature; I was able to access roof and hot water heater which has to be reset very frequently for hot water temp, meanwhile facility will use TSA for hot water by reverting to manual ware wash and boiling water in conjunction with reseting hot water heater, as they was to be a new install of the mechanical dishwasher on 6/22; violations # 40, 39, and 30 are OK and abated; re-inspection scheduled for next day or later to verify the TSA.
