Inspection Violations
No violations cited.

Overall Inspection Comments
re-inspection to evaluate violations from inspection done on 6/17/22; TSA for hot water appears to be working and refrigeration on front line was fixed, food temperatures are at 38-42 degrees F; hot water is still a major problem and dishwasher installation was delayed due to plumber being sick; re-inspection to occur on or after 6/24/22 to see if facility will be able to manager through the weekend
